Brad C. Phillips, Ph.D.
Director of Institutional Research
Grossmont – Cuyamaca Community College District
San Diego, CA 92020

Dear Dr. Phillips:

I recently received a copy of the presentation that you and Dr. Johnston shared with the Imperial Valley Educators Consortium. I want to express my thanks and congratulations on the progress that you've made regarding the data sharing agreement between our institutions.

As a direct result of the efforts of the San Diego Data Sharing Consortium, our district has positioned itself to better evaluate our course offerings, the curriculum within specific courses, and the sequences of courses that our students engage. In addition, it is my understanding that curriculum councils have been established which consist of teachers representing many of the consortium partners and are meeting to better facilitate the transition from high school to community college and, ultimately, four year institution enrollment.

I wish you continued success and offer my support for this project. Please let me know if there's anything I can do to ensure that this project moves forward in a manner that facilitates the furthering of positive educational experiences for all our students.

Sincerely,

Warren Williams
Assistant Superintendent
Information and Technology Services
